

At the 11th hour, our Laurentian based keener - Brent - convinced Tim and myself that his neighbourhood P'tit train du Nord was the only viable option for a Thursday ski.

So, with Cart Reseaux in hand, we made a 10 am rendez-vous at the Gare de Piedmont, then skied up and back for a 25 km sunny round trip. The track was freshly laden with a granulated sugar-like surface, skating down the 4% railway grade was pretty exhilarating!!
