

## Viking Thursday Tour Report for 5<sup>th</sup> January 2017

Summary: skied loop of some 9km, temp around -12 deg. C, intensely sunny, occasional light winds.

Some 5 Vikings (Judy, Linda, Mike, Shelia and Derek) managed to tear themselves away from Xmas couches, and showed up at the Viking clubhouse.....ready to burn off holiday calories! And that we did setting off and breaking trail on the Crown East, crossing Lac Dey to join up with the Crown South, then breaking more trail to return via Lac Hills, and then Crown East traversing the length of Lac Edouard, and enjoying some freshly track set trail along the Red return to the clubhouse.

Let the following images convey how just how delightful a winter scene it all was!

Arrival at a sun drenched spot on Crown South

Alas, Lac Edouard Airlines not flying today!
