

# Viking Monday Tour Report February 1, 2021

## 7.5km Sheldon Racing

Well, our ski on the 7.5km Sheldon Racing trails was really good.

It started off a bit on the cold side but warmed up considerably. My hard green Swix V20 wax was awesome, I almost walked up the hill. The surface was a bit hard, but it was easy to check your speed and it was quite fast. We stopped quite a bit, socially distancing, and the trip took a bit under 2 hrs.

I was surprised to see so many cars in the parking lot. There was a consensus afterwards that we should have all or most of the Monday tours at Viking. There are so many beautiful trails, that in previous years we got to only every other year, at best. Anyway, this is a democratic process so I will continue to listen to y'all.

Gordon
