

Viking Monday Tour Report for February 22, 2021

Destination: Crown South

Well, Mondays tour at Viking was another success. Jarmila, ChrisN, Linda, Daphne and I parked at the Methot, Cloutier's on ch du Lac Rond. When we got there we arranged with Isabelle Cloutier to tuck our 3 cars into a corner behind their garage. They have been complimentary members of Viking for quite a few years since the Crown South crosses their property. While we were doing this Cathy Ann, Bruce, DonH and DaveC decided to do the trip from Viking about 20kms. They said they would lap us but they never did! DonH cut out to his cottage when the trail passed nearby Lac Gustave. WilmaW and new tourer Cathy Sidorenko were supposed to meet us where we parked but we waited until almost 10:50, but they never showed up. When they did arrive they thought that we had not come because our cars were not on the road, as explained above.

The trip round the Crown South was uneventful. Conditions were great, and it was cold only when we were crossing a lake or the area logged a couple of years ago. While on the trip we met Sylvia Fendl who was skiing with a friend. It's very social skiing at Viking!

According to Jarmila's GPS we did a little over 14kms in a little over 3 hours.
