

Viking Thursday Tour Report for January 28, 2022

Hello Viking tourers,

Our tour this past Thursday was short but sweet!

Six of us met at Viking, Derek, Katherine, Jarmila, Heidi, myself, and Tomas skied over from Lac Notre-Dame, skied with us until we reached the Crown West and returned from there to chez lui.

We met Pierre Descombes and his new mate Conrad Brochocki, from Vankleek Hill ON, son of fellow tourer Jan Brochocki at Viking, who gave us the welcome news that they were to depart immediately to track the Crown East which we had planned to ski on.

So, we set off, and the conditions were super good due to 8 cm of the lightest, fluffiest white stuff which fell overnight. At the end of the Crown East at Lac Dey we turned right on the Crown South, climbing up to Hills Lake, across the lake and over to the Crown West where Tomas left us. We continued up the Crown South to Lac Édouard. Derek, Katherine and Jarmila decided to stay with Heidi and me and not take the longer route back, so we all skied east on the lake turning left onto the driveway, east again on Jackson Rd, left up to D and back on the Red and the pond, Statistics: We were out for 3 hours and skied just over 10kms. Merci Jarmila!
